To the BCarbon Team,

Please file this Letter of Intent as demonstration of our interest in beginning the pre-consultation and potentially formal application process for BCarbon blue carbon/living shoreline credits. We have reviewed your protocol (*version #x*), and *[insert any immediate questions or topics for clarification here]*.

Below we describe our project area and development to date:

Project Area Summary

[Please provide information on project site location(s), estimated acreage, any environmental features of note i.e. presence of (or proximity to) endangered species habitat, roads, relevant anthropogenic land use(s)]

Rationale for Living Shoreline Construction

[Summary of any marsh loss to date, vulnerability to sea level rise at site, and other important details that explain why construction of a living shoreline is an appropriate conservation measure at the site.]

Strategy for Shoreline Construction:

[With the understanding that these plans may change and are in no way final, please provide a summary of current logistical thinking for shoreline construction, including details of any contractors, consulting partners, or engineering firms assisting, planned materials to be used, and current status of agreements with area landowners (if applicable).]

[Please provide estimated date of application or other timeline considerations if known.]

[(Optional) please attach additional narrative or material that you wish to present to BCarbon at this time.]

Thank you for your review of our project information to date *[attach and describe any relevant information included as relevant]*. We look forward to meeting with you to discuss next steps. Our availability is *[date/times convenient for a video conferencing call]*.

Sincerely,
