*Applicant Email and Phone Number*

*Date*

To the BCarbon Team,

Please file this Letter of Intent as demonstration of our interest in beginning the pre-consultation and potentially formal application process for BCarbon carbon credits associated with the Methane Capture and Reclamation Protocol. We have reviewed your protocol (*version #x*), and *[insert any immediate questions or topics for clarification here]*.

Below we describe our project area and development to date:

**Project Area and Well Information**

*[Please provide information on number of wells in the project, well location(s), presiding regulator, API well number(s), well type, and any historical information on the well (date drilled, date shut-in, last production date, estimated leakage rates and decline calculations, etc).]*

**Rationale for Project to be Eligible for Carbon Credits:**

*[Summary of emissions testing results (if any at this time), including date, equipment selection, and calibration.]*

*[Summary of historical production data. If historic production is not available from either presiding regulatory agency or third-party production software company, explain how you plan to demonstrate historic gas production.]*

**Planned Plugging Strategy for Wells:**

*[Please provide a summary of any draft well plugging plans, schematics, or other associated documentation, including any draft site surface reclamation plans. Attach relevant documents where available.]*

*[Please provide estimated date of application or other timeline considerations if known.]*

Thank you for your review of our project information to date *[attach and describe any relevant information included as relevant]*. We look forward to meeting with you to discuss next steps. Our availability is *[date/times convenient for a video conferencing call]*.

Sincerely,

*[Applicant Signature]*
